

We are **ieb Translation Services**

We communicate clearly and make it easy. We thoroughly work to spread knowledge, diversity and cooperation, which are the essence of good communication. We believe translation is the art of saying the same in different ways. We are more than a company **present in the market since 2008**. We are building a bridge towards a diverse, conscious and justice-oriented world.

We believe that a quick and quality translation is fundamental for connecting with others, opening new markets, approaching new audiences, expanding knowledge and erasing borders. We are global. Today, thanks to new technologies and an increase in global cross-dependency, countries, cities and offices are no longer the rule. We work remotely from anywhere in the world, reducing the carbon footprint, in line with the best green efficiency standards.

ieb Translation Services has a unique global team with the mission of working in multiple projects, which allows for the production of specific works, with a consistent quality, and of great volumes, at an extraordinary pace, flexibility, focus and scale.

We translate to English, Spanish, German, Italian, French and Portuguese (in all of their combinations). We annually translate more than 9 million words.

The team of **ieb Translation Services** has the training, latest technology and new computer-assisted translation tools in order to successfully meet their goals. We also thrive because at ieb Translation Services we have a work and life balance philosophy which allows us to be everywhere and values flexibility and team work. Our work process ensures resu

Our main cornerstones:

- **The Time Factor:** What makes a difference in our existence is to achieve, within a limited amount of time, that what we came to do: time shapes how we live and work. The time factor is crucial in all that we do.
- **Meritocracy:** Our hierarchy is based on judgment and we constantly compare with objective standards which are 100% transparent. We believe in acknowledging and instantaneously adopting good ideas, and all works and roles are assigned based on merit.
- **Leadership:** Leadership is a vital part of our process, since it requires insight and the ability to find the right people to concisely and clearly communicate what is necessary to transmit in order to deliver a quality translation by the agreed deadline.
- **Production:** We can deliver and maintain high volumes of quality work thanks to our contact network, collaborative spirit and the profound importance we give to time and efficiency.
- **Processes:** At the same time the production stage begins, we begin our quality assurance process based on the guidelines, deadline and quality checks requested by the customer or any other element they may require.
